

PITAYAPlus

THE BODY CLEANSING SUPERFRUIT

What is Pitaya?

Pitaya / Dragonfruit is a superfruit indigenous to Central America, that grows on a cactus along the fertile volcanic-mountainsides. Considered a prized fruit amongst locals, it's rich magenta colored flesh has been eaten for hundreds of years. A good source of fiber and magnesium, it's the perfect way to start your day, energize before exercising, or refresh after a work out.

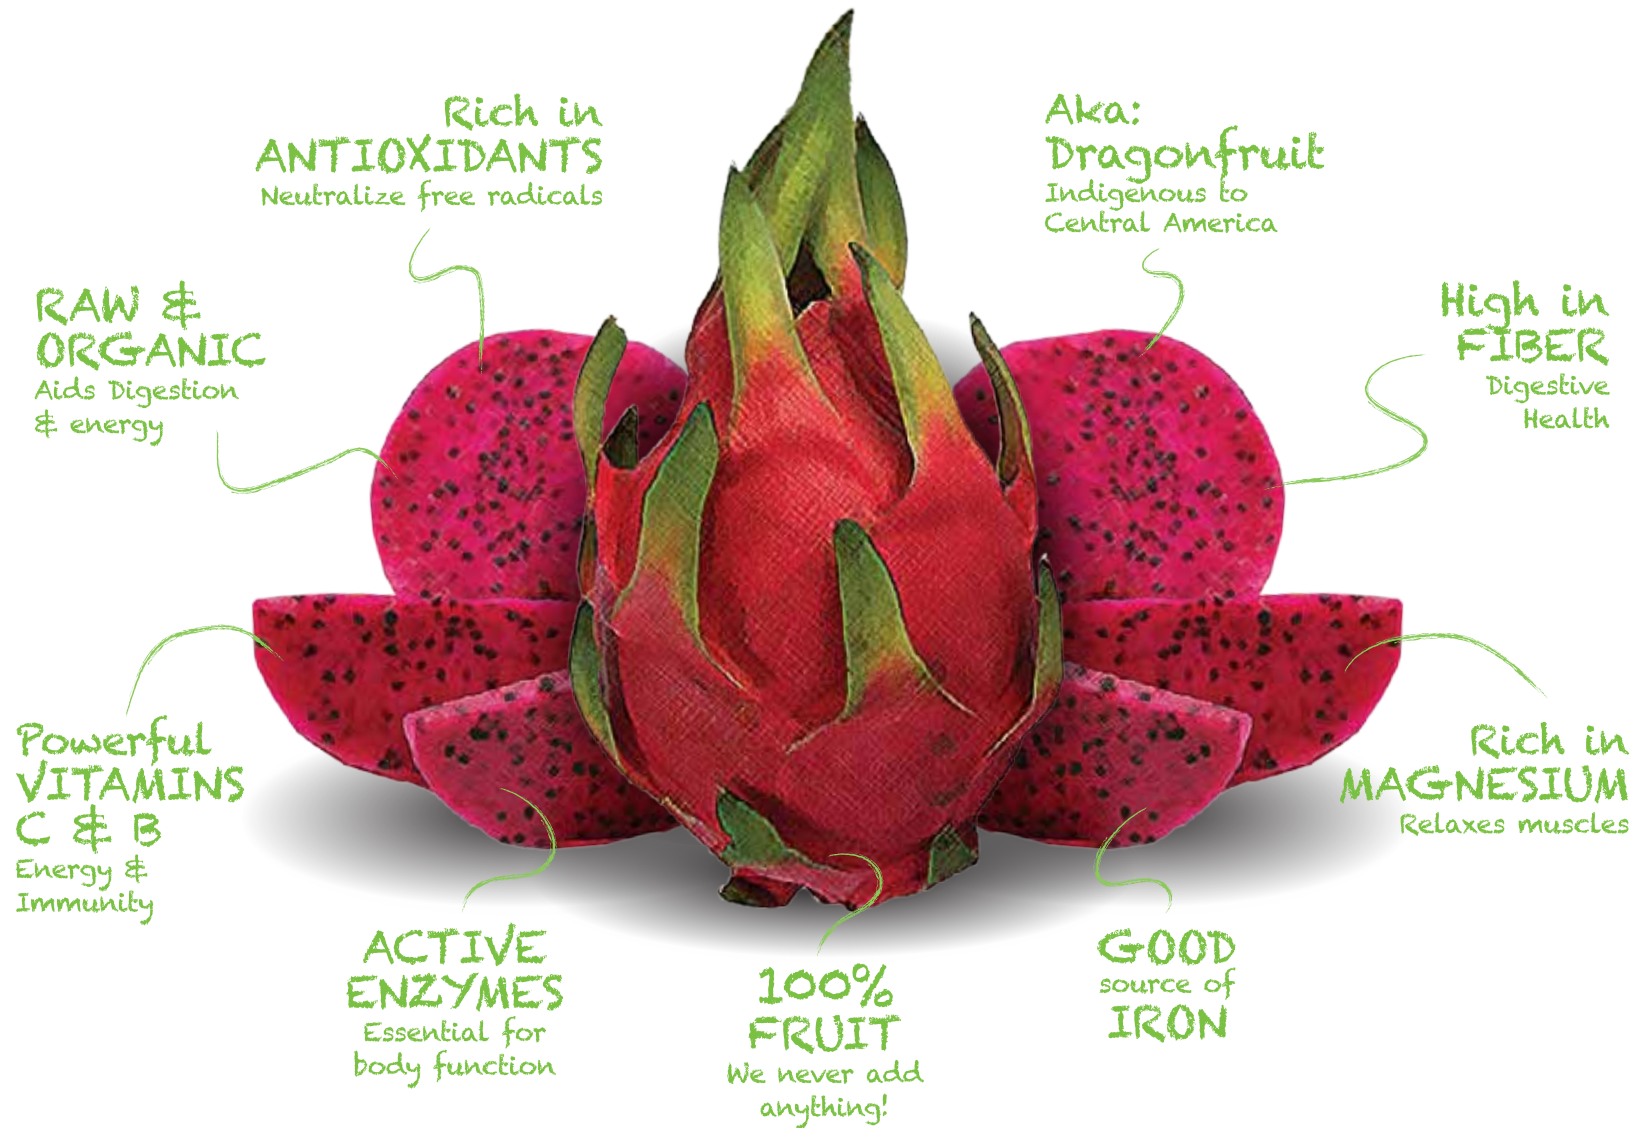

Superfruit On A Mission

PITAYAPlus started with a simple mission. We promote sustainable organic farming, create jobs in the poverty-stricken areas that we source from, and produce the healthiest products possible with minimal processing.

After all it's just fruit, not rocket science!
